2. Open to part time contracts 16–20 hrs/week.

Full Stack Engineer

3 Apr 2022 – 10 Mar 2023

Morressier GmbH | Berlin, Germany

Worked remotely from Mumbai, India developing new features while maintaining and migrating away from legacy code.

1. Built and maintained features that brought most of the revenue of the company.
2. Designed, architected and built client facing features (Workflows for publishers and event organizers) and back-end microservices using DDD principles.
3. Integrated 3rd party APIs and wrote unit test for critical business logic.

Full Stack Developer

24 Feb 2021 – 20 Mar 2022

Finoux Solutions Pvt Ltd | Mumbai, India

Developed web application as a third party consultant/developer for one of India's largest Investment Fund.

1. Designed and built in-house applications for end to end investment fund management and bank API integration (private payment gateway) to reduce and remove dependency on expensive 3rd party service providers subscriptions.
2. Developed a frontend library in React to automatically generate modules (CRUD operations, tables, forms and validations) from a JSON configuration.
3. Developed back-end and front-end modules using React, Redux, Ag-grid, Express.

Software Engineer

10 Nov 2019 – 21 Feb 2021

Neosoft Technologies | Mumbai, India

Built web applications, set up CI/CD and AWS.

1. Built and integrated automated meeting creation, booking, check-in, check-out system capable of seamless integration with Meeting Scheduling systems like Trimble with

events from IoT sensors.

2. Optimized existing software for performance and creating tools and services based on hardware sensor data (upto 30x faster queries and reduced database crashes from out of memory errors down to 0).
3. Built office space reservation/allocation/check-in/check-out system focusing on COVID-19 Social distancing regulations using data from sensors and QR scanners (built on AWS serverless architecture).
4. Created Real-Time analytics dashboards with websockets and ETL pipelines for sensor data.

Web Developer

2 Sep 2018 – 7 Nov 2019

Legaldocs RSE Pvt Ltd | Navi Mumbai, India

Built web application, android mobile application, automation tools, generated report for analytics.

1. Developed web apps for the automation of legal processes like license registrations and legal document drafting.
2. Built/maintained in-house CRM, Backend Admin Panel, Chrome extensions. Generated reports for stakeholders.
3. Built web front-end+back-end and Android native application "Ezoto" (Billing – Accounting – Tax – Inventory Management App) which had over 40k+ downloads and thousands of active users within 5 months.

Web Developer

31 Jan 2018 – 30 Aug 2018

Ahsan Alliance Pvt Ltd | Mumbai, India

Developed sports social media web application for the company

1. Created team, player and competition management tools, social media features, mini games for user engagement.
2. Scorecards for over 150+ sports with stats tracking and excerpts and live chat for teams.
3. Redesigned MariaDB database for scalability and performance.
4. SPOC between web hosting company, developers and CEO to ensure stability of web app and timely delivery of features.

Web Development Intern

23 Oct 2017 – 30 Jan 2018

Fierydevs Pvt Ltd | Thane, India

1. Created responsive, pixel perfect HTML templates for an e-commerce application.
2. Built a survey tool called Questionnaire to facilitate creation customized forms to collect and review responses.
3. Lead the initiative to move away from old form creation tool to form.io and integrated it with Yii2 backend.
